

**Trek: COMMUNITY (CO)**  
**Community Program Assessment**

**Instructions:** This assessment is used to help students reflect on their experience participating in the COMMUNITY Program. Your answers should be as complete and thoughtful as possible and written in full narrative responses that take up **at least one page per question**. All responses should be typed and double spaced and are due in hard copy at the Capstone Session that you choose to attend unless specified by the Director of Community Engagement OR your faculty sponsor.

**Name:** \_\_\_\_\_ **Email:** \_\_\_\_\_

**Major:** \_\_\_\_\_ **Grad Date:** \_\_\_\_\_

**Activity Semester** (circle): Fall, Spring, Summer 20\_\_\_\_ **Total Service Hours Completed:** \_\_\_\_\_

**Activity (please check one):**

- COMMUNITY Course (TREK 151/153)     COMMUNITY May Module (pre-approved for CO credit)
- COMMUNITY Credit Course     Faculty Sponsored Service-Learning Project
- Christian Leadership Center

---

**Community Program Assessment**

1. How have your attitudes and beliefs about our broader community and the people within our community changed as a consequence of this service-learning experience. If they have changed, why do you think they did? If they did not, why not?
2. Describe at least two ways that the knowledge (facts, theories, etc.) from this class, your other classes, or your academic major connects to community engagement and participation through serving one's community.
3. Describe a specific activity, event, or conversation during your service-learning experience that brought more self-awareness about yourself and the role you could or should take in your community. What did the service-learning experience teach you? If you feel that this experience has not had such an effect, why not?
4. Describe at least two ways that your service partner could more effectively communicate their services and mission to the community, deliver those services, recruit volunteers to assist their organization, or increase their effectiveness in acquiring funding.
5. Describe how you will use this experience going forward to work across and within your community to improve things for some (or all) members of our community or to address an ongoing social problem.
